

NPD

Power Foamer

Is a convenient hose end attachment that can be used for the treatment of many areas harboring pest problems. The Power Foamer is designed for quickly treating large areas. The system has a quick release for rinsing, input hose and back flow preventer combination.

When used with ProFoam Platinum and BioPlus it provides increased surface contact time allowing for deep penetration into organic waste.

Eliminating odors and enhancing composting are major problems that need to be a part of your program when dealing with crawling or flying insect pests.

CREATE ADD ON REVENUE

Applications:

- Dumpsters
- Restaurant Floor Treatment
- Supermarkets
